

PETROSERVICE LIMITED

Petro Service Limited has a full range of PPE equipment available to the local market. This PPE equipment can be used for personal protection while enabling customer interaction.

Petro Service is the distributor for Gorrie products here in Newfoundland and Labrador. The company serves 85 per cent of Canada's petroleum market and is one of the leading suppliers of forecourt products and solutions for retail stations and businesses.

Retail Retrofit Partition and the PPE Face Shield

Some of the main products are the retail retrofit partition and the PPE face shield. The PPE flip up face shield offers an added form of personal protection with a clear design with a flip up shield, size adjustable band and lightweight design. Lead time 3-5 days confirmed upon receipt of order and availability of products. The retail retrofit partition comes in various sizes and is designed to reduce counter interaction.

This equipment is ideal for any company or business that is currently dealing with the public.

Contact Heath O'Neill for pricing options.
