

Energy NL

Conference & Exhibition
at the St. John's Convention Centre

Day 1 - June 4

7:30 a.m. Registration and Exhibition opens

SESSION ONE: The Energy Mix & The Opportunity: An Exploration

8:30 a.m. The Newfoundland and Labrador Energy sector has a unique mix of lower carbon energy sources and leading ESG standards that can help meet the global demand for energy. The first session of the Energy NL Conference & Exhibition 2024 will explore the energy mix of Newfoundland and Labrador and the opportunity available for success in an everchanging global energy market.

Morning Address:

- Dr. Andrew Furey, Premier of Newfoundland and Labrador

Project Updates:

- Kerry Moreland, President, ExxonMobil Canada
- Sean Leet, Managing Director and CEO, World Energy GH2

Session Speakers:

- Jim Keating, CEO, OilCo
- David Campbell, President, Jupia Consultants

SESSION TWO: Regulatory (Un)Certainty: Overcoming Challenges to Be Competitive

10:30 a.m. Investors desire regulatory certainty within the jurisdictions they decide to operate in. The Newfoundland and Labrador energy sector has struggled with apparent regulatory (un)certainty for some time, with ever increasing layers of regulations and regulatory changes on the horizon. This session will explore the regulatory framework of the Newfoundland and Labrador energy sector within a global context and how the sector can overcome perceived challenges on the road to competitiveness, sustainability, and prosperity.

Project Updates:

- Ravi Sood, Executive Chairman and Co-founder, EVREC
- Jonathan Brown, Senior Vice-President, Cenovus

Session Speakers:

- Scott Tessier, CEO, Canada-Newfoundland and Labrador Offshore Petroleum Board
- Dr. Monica Gattinger, Director of the Institute for Science, Society and Policy, & Founder/Chair of Positive Energy at the University of Ottawa
- Dr. Michel Heijdra, Vice Minister for Climate & Energy at the Netherlands' Ministry of Economic Affairs and Climate Policy

1:05 p.m. Keynote Luncheon with Michael Cohen, Chief US Economist and Head of Oil and Refining in bp's Strategy, Sustainability & Ventures

Day 1 - June 4

International Business Program

3:00 p.m. The United Arab Emirates Market

Second floor in the Pippy Room

Opening Remarks, and Background on the UAE Energy Market

Moderator, Sally Koornneef, Trade Commissioner, Embassy of Canada -Abu Dhabi

Euro Mechanicals Role in the Energy Sector in the UAE- Bringing Innovation to the Oilfield

Ahmed Jasser, CCO, Euro Mechanical

TRE - Decarbonization in the UAE, Our Commitment and Mission

Ahmed Tanweer, General Manager, TRE

Closing Remarks

Sally Koornneef

4:00 p.m. The Netherlands Market

Second floor in the Pippy Room

The Netherlands Hydrogen Strategy

Michel Heijdra, Vice Minister for Climate & Energy, Netherlands' Ministry of Economic Affairs and Climate Policy

Rotterdam Hydrogen Hub – A Port in Transition

Mark-Simon Benjamins, Business Manager, Port of Rotterdam

Gasunie's Critical Role as an Infrastructure Provider in the Hydrogen Value Chain

Joost de Ruijter, Business Development Hydrogen Import, Gasunie

Capacity Building in Atlantic Canada, A Hands-on Dutch Approach

Jan van der Tempel, CEO, DOB-Academy

Decarbonizing Tata Steel's Ijmuiden Production Process

Paul Vonk, Hydrogen Business Lead, Tata Steel

7:00 p.m. Energy NL Conference Reception at Banished Brewing

Day 2 - June 5

7:30 a.m. Registration and Exhibition opens

SESSION THREE: Enabling Net Zero: Newfoundland and Labrador Energy Leadership

8:30 a.m. Across the world nations and organizations have agreed to lower emissions with goals to achieve net zero emissions by 2050. Achieving these laudable, yet lofty ambitions, will take significant investment and commitment, along with lower carbon energy sources. This session will discuss Newfoundland and Labrador's own path to net zero and how it can enable Canada and the world achieve this objective during the challenging period of a new energy evolution.

Morning Address:

- Seamus O'Regan, Minister of Labour and Seniors, Government of Canada

Project Update:

- Gary Murray, President and CEO, Newfoundland Power

Session Speakers:

- Astrid Jørgenvåg, Vice President Technical and Innovation, Altera Infrastructure
- Katie Applebaum, Offshore Wind Commercial Lead, TGS
- Frederic Schneider, Projects Director, Beicip Franlab

SESSION FOUR: Beginning to Understand: Indigenous Participation in Resource Projects

10:30 a.m. Energy projects in Canada cannot and should not proceed without meaningful involvement and engagement of Indigenous peoples. Yet, many organizations and individuals within the energy sector are unsure of how participation and consultation should occur. A panel of Indigenous leaders and members of the energy sector will discuss this issue to help educate the sector on meaningful inclusion and how to begin to understand Indigenous participation in resource projects.

Project Update:

- Brent Miller, Vice-President, East Coast, Suncor
- Frank Davis, Managing Director, Pattern Energy

Panelists:

- Margaret Kenequanash, CEO, Wataynikaneyap Power
- Jenny Brake, Chief, Qalipu First Nation
- Garry Best, CEO, Nunatsiavut Group of Companies

1:05 p.m. Keynote Luncheon with David Cochrane, Host of CBC's Power & Politics

Day 2 - June 5

International Business Program

3:00 p.m. The Danish Market

Second floor in the Pippy Room

Applying Danish Experiences to Newfoundland and Labrador

Morten Siem Lynge, Director of Energy, North America and Consul General,
Ministry of Foreign Affairs of Denmark

Introduction to Eight Danish Companies Spanning Wind and Hydrogen Value Chains Stiesdal, Danfoss, Grundfos, CIP, DEIF, EIFO, FORCE Technology, and Polytech

Perspectives on a Canadian – Danish Hydrogen Partnership

Moderator: Morten Siem Lynge

Participants:

Bo Birkemose, CCO, Stiesdal

Helge Vandel Jensen, Business Development Director, Danfoss

Jordan Farber, Strategic Corporate Accounts, Grundfos

6:30 p.m. Lobsterfest at ReMax Centre

Day 3 - June 6

7:30 a.m. Registration and Exhibition opens

SESSION FIVE: Advancing Energy Through Innovation: New Technologies & Opportunities

8:30 a.m. Innovation is the leading force of change in the energy sector, from technological advances to new storage opportunities and fuel sources. Innovative approaches provide solutions to the challenges facing the energy sector while also providing untold opportunities for energy development, safety, and lowering environmental impacts. Participants in this session will discuss innovation in the global energy sector; specifically, how innovation and technology are creating opportunities in the Newfoundland and Labrador energy sector.

Morning Address:

- Andrew Parsons, Minister of Industry, Energy and Technology, Government of Newfoundland and Labrador

Project Update:

- Michelle Lethbridge, Senior Project Manager, ABO Wind

Session Speakers:

- Julie Lemieux, CEO, Triple Point Resources
- Jaydip Bhadaliya, Manager – Technical Services, Braya Renewable Fuels
- Steve Priestley, Chief Operating Officer, AltoMaxx

SESSION SIX: Ready for Success: How to Prepare for the Modern Energy Economy

10:25 a.m. In our global economy, no sector or organization can succeed without a vision for the education and labour needs of the future, along with a clear focus on ESG principles. The final session of the Energy NL Conference & Exhibition 2024 explores the critical role these elements will play in the modern energy economy and how delegates can apply best practices within their own organization to help further their success and participation in the supply and service value chain of the world's leading companies.

Project Updates:

- Trent Vichie, CEO, EverWind Fuels
- Tore Løseth, Country Manager, Equinor Canada

Session Speakers:

- Elizabeth Kidd, President and CEO, College of the North Atlantic
- Morgan Chafe, Director of Student Summer Employment Program, WISE NL, and Samantha Nash, Machinery and Cranes Engineer, ExxonMobil Canada
- Dr. Tom Cooper, Memorial University Faculty of Business Administration

1:00 p.m. Keynote Luncheon with Jennifer Williams, President & CEO, Newfoundland and Labrador Hydro

2:30-4:30 p.m. Closing Reception in the St. John's Convention Centre Exhibition Space
