

Energy NL Members Questions for Candidates
2025 Provincial General Election

Do you support the Newfoundland and Labrador energy industry, both the non-renewable and renewable sectors?

How will you advocate for, or support, the Newfoundland and Labrador energy industry?

Will you demand the immediate elimination of the oil and gas emissions cap regulations which cap production and growth of our offshore?

Will you work to ensure Newfoundland and Labrador companies and people are the principal beneficiaries of all energy projects, such as Bay du Nord and the Churchill River hydro developments?

Do you support the Bay du Nord project, and will you advocate for incentives to accelerate its approval?

Will you support incentives to encourage offshore oil and gas exploration?

Will your government take steps to address concerns of onshore wind developers and take quick action to help these projects move forward?

Will you stand with the Newfoundland and Labrador energy industry?
